मेरी सरकार

Why not extend it for grass-root level?

Gram panchayat

- A basic village governing institute in Indian villages
- It is a democratic & political structure
- Public work and welfare functions
- 250,000+ gram panchayats in India

MyGramPanchayat

- A two-way platform connecting villagers and gram panchayat
- To achieve operational efficiency
- To interact with more effectively

Benefits

Gram panchayat

- Government documents, records, certificates, etc. can be digitized and made accessible through mandating use of standards and protocols
- Send important communications
- Send reminders
- Villagers database

Villagers

- Easy access to the digital resources
- Follow ups
- Suggestions
- New Complains & status tracking

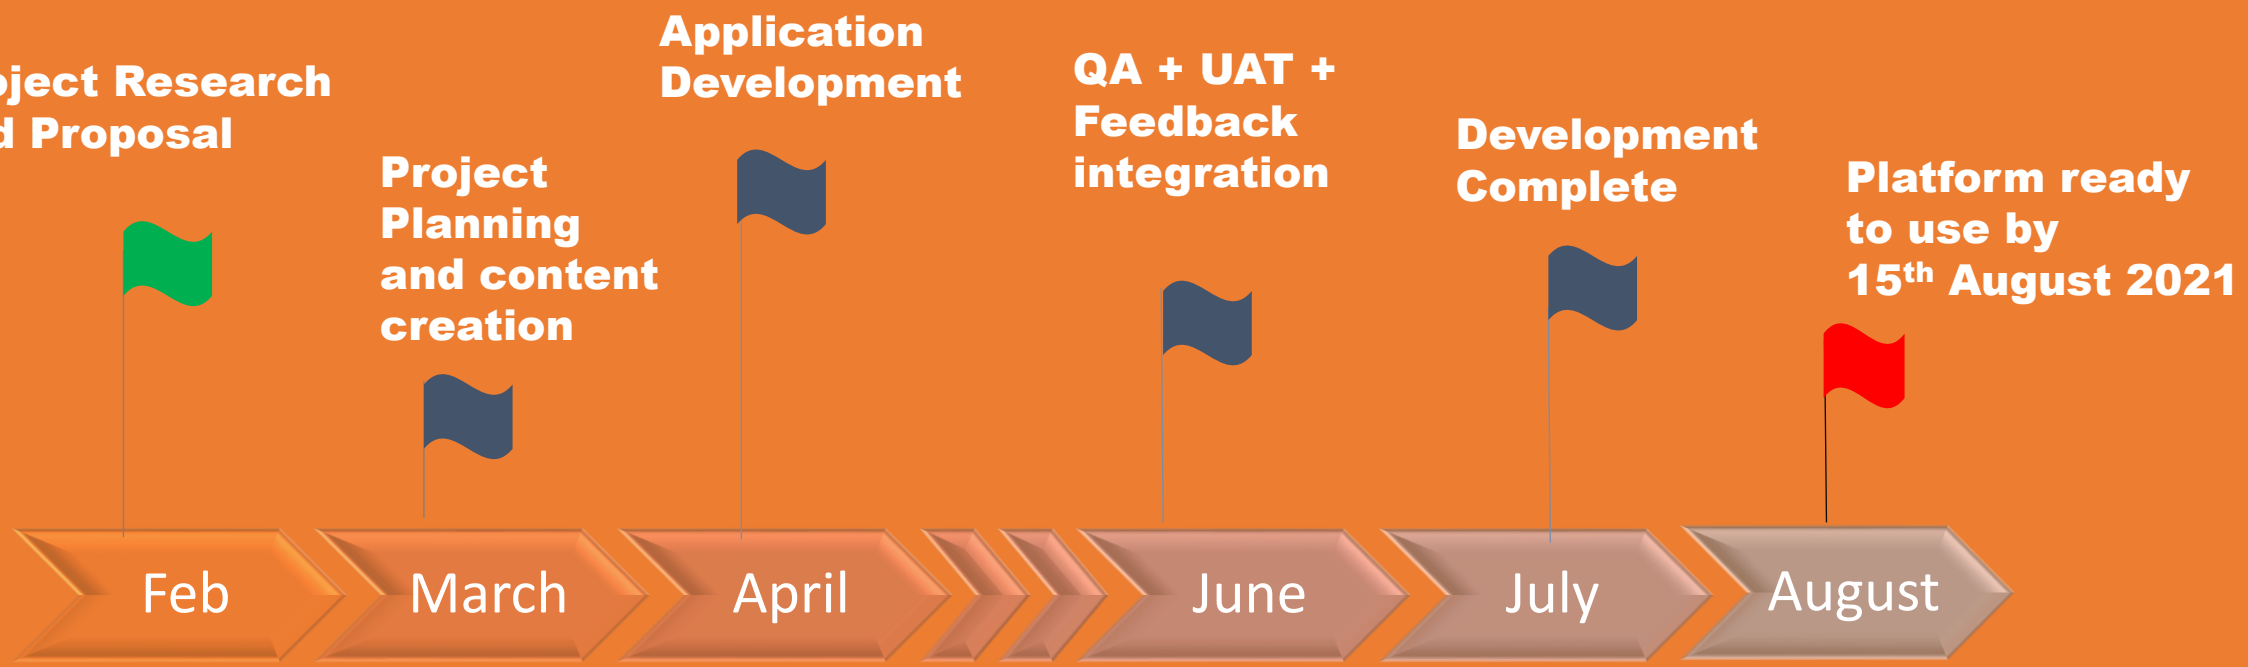
Implementation Plan

From where to start?

- 12 Talukas
- 1000+ gram panchayats

- "Kale Gram Panchayat" (Tal Panhala)
  - 6500+ villagers/users
  - Already available Infrastructure (mobile internet connectivity, electricity, smartphones per family > 1)
  - Administrative Support
  - Mobile literate villagers

Timeline



Project Research and Proposal
Project Planning and content creation
Application Development
QA + UAT + Feedback integration
Development Complete
Platform ready to use by 15th August 2021
Feb
March
April
June
July
August

Support Needed

Financial

- Cost of development
  - User Experience
  - Mobile Application UI
  - Server side (backend)
- Infrastructure cost
  - AWS cloud
  - Deployments
- Maintenance and support
- Training the administrative people

Non-Financial

- Detailed Information of various functions of gram panchayats
  - content creation
- Administrative support to e-governance
  - Actively handling the platform and villager's queries
- Promoting the use of a platform among the villagers
